

DOMAIN BROKERAGE

Secure the exact domain you need – even if it's already taken.

> Datasheet

Key challenges

➤ **Is your ideal domain name already registered?**

When your target domain is taken, you're forced into second-best choices that weaken brand recognition and credibility.

➤ **Worried about overpaying?**

Without expert negotiation, it's easy to pay inflated prices or lose the deal entirely.

➤ **Struggling to manage acquisitions?**

Domain acquisitions involve contracts, escrow, and transfer processes that can carry fraud or compliance risks.

30–40%

Savings on premium domain acquisitions

Through Ilkari's brokerage, leading companies have acquired strategic domains in as little as 2–4 weeks, achieving 30–40% savings versus initial asking prices.

Premium domains are frequently already registered, and attempting to acquire them without expert guidance can lead to overpaying, failed negotiations, or exposure of your strategic plans.

Our solution

Ilkari's Domain Brokerage service helps you acquire premium domains already in use, or monetize domains you no longer need. We handle the entire process discreetly, professionally, and securely, ensuring you get the domain you want at a fair value.

Key benefits

Discretion

Your identity is fully protected during negotiations, preventing inflated prices or lost leverage.

Security

Every deal is handled professionally, reducing risks of fraud or failed transfers.

Efficiency

We manage the full acquisition lifecycle, freeing your team to focus on growth.

Expertise

Our brokers use market insight and data to secure domains at fair value.

Portfolio optimisation

Identify, monetize, or repurpose existing domains for additional ROI.

Strategic advantage

Acquire domains that enhance brand credibility, SEO visibility, and market position.

How it works

01

Get a broker assigned

02

Select your target domains

03

Expert negotiations

04

Secure transfer

Take action

Contact our brokerage team to secure the domain name you need - quickly, securely, and confidentially.
