

DC North

📍 VARAŽDIN, CROATIA

Europe's resilient and scalable infrastructure hub

Ilkari's Croatia data centre, DC North, delivers Uptime Tier III-certified infrastructure and DORA-aligned operations for enterprise, financial services and regulated workloads across Europe.

Located in Varaždin, 70 km from Zagreb, in a seismically stable zone (MCS VII) with a 100-year flood-free record, DC North is ideally positioned to support disaster recovery and business continuity strategies for organisations across Croatia and Central Europe.

As Croatia's largest carrier-neutral data centre by operational power capacity, DC North combines resilient connectivity with the infrastructure and capacity to grow alongside your business. Direct connections to internet exchange points in Austria, Hungary and Slovenia, together with access to leading Tier 1 global and Tier 2 national providers, enable low-latency connectivity across the region.

At a glance

- ➔ 2000 m² of net technical space
- ➔ 4 MW of operational power capacity with expansion potential to 10 MW
- ➔ 99.982% uptime
- ➔ Direct connectivity to exchange points in Austria, Hungary and Slovenia
- ➔ Uptime Institute Tier III Design & Facility Certification
- ➔ DORA - aligned operations
- ➔ Certifications:
ISO 9001, ISO 14001, ISO 20000, ISO 27001, ISO 22301, PCI - DSS

Technical specifications

Location	⌚ Located in Varaždin, Brezje — 70 km from Zagreb ⌚ Seismically stable zone (MCS VII) with a 100-year flood-free record	
IT Space	⌚ 6 data centre rooms of 340 m² each, totalling 2,000 m² of net technical space ⌚ Available as private suites, IT white space or secure cages	
Power	⌚ 2.8 MW of installed power capacity, supplied via a 4 MW ring fed from two directions ⌚ Expansion potential to 10 MW from the incoming grid supply ⌚ N+N UPS redundancy ⌚ 99.982% uptime ⌚ Flexible power configurations to support enterprise infrastructure and high-density AI workloads	
Cooling	⌚ N+1 cooling redundancy	
Cabinets	⌚ Cabinet rental with access-control by design (800 x 1200 mm — 47RU) ⌚ A+B power with smart C19 PDUs	
Connectivity	⌚ Access to leading Tier 1 global and Tier 2 national providers ⌚ Three independent fibre pathways and two redundant meet-me rooms ⌚ Geographically independent backbone routes to Zagreb ⌚ Direct connections to internet exchange points in Austria, Hungary and Slovenia	
Security	⌚ 24/7 monitoring ⌚ 120+ CCTV cameras and mantrap access controls	
Support	⌚ 24/7 smart hands	
Sustainability	⌚ Design PUE of 1.29 ⌚ A+ certification	
Certifications	⌚ Uptime Tier III Design Certification ⌚ Uptime Tier III Facility Certification ⌚ ISO 9001 ⌚ ISO 14001 ⌚ ISO 20000	⌚ ISO 27001 ⌚ ISO 22301 ⌚ PCI DSS compliant ⌚ DORA alignment

About Ilkari

Ilkari is a sovereign infrastructure provider delivering resilient data centre, sovereign cloud and enterprise domain name services across Europe and Latin America, helping organisations strengthen operational resilience, meet compliance requirements and support long-term growth.
